

Objective IELTS Advanced needs analysis

Objective IELTS Advanced Unit 1

Rank the topics below by how much class time you would be interested in spending on them from 1 to 20, by how interesting they are and/ or how relevant they are to your future studies.

Exploration

Food technology

Genetics

Geography and geology

History

Human and animal communication

Human and animal migration

Literature and translation

Man-made materials

Marketing

Music

Psychology

Social change

Space

Sport

Statistics and risk

Study skills

The development of cities

The world of work

What dreams mean

Rank these skills in the same way by how much time you went to spend on them in class, for example because you generally find that difficult or had problems in an IELTS test:

Listening

Reading

Speaking

Writing

Why do you find some of those things difficult? What can you do outside class to improve them?
